### **Personal Profile**

Most definitely and forever into the future I have been passionate about everything I do and want to achieve I am eager to learn and looking for a position that will develop my skills. I am a well organised, trustworthy, and positive individual who works hard to achieve my full potential. Firstly, I am a team working individual as I have played for many football teams and can easily adapt to work with other people, and I achieved my national citizen services course which helped me develop myself and with communicating with others as we did activities to improve teamwork to complete goals. My strengths include reliability, determination, good work ethics and consideration for others.

### **Education**

**BSc Honours Computer Science for Games at Sheffield Hallam University**– currently studying modules:  
Fundamentals of computer architecture: Fundamentals of programming for games: Introduction to game development: Mathematics for graphics: Professional experience and project development: System modelling for games

**Rawmarsh community school 2012-2017**

9 GCSEs grade A-C including Maths and English

**Dearne valley 2017-2019**

Level 3 diploma in It and computing: (DMM)

### **Work Experience**

**Next sales support**

This was temporary, for the Christmas sales. My job role was to help prepare for the Next sale. This included pricing and merchandising stock.

**Environment Agency**

Working full time at the EA was flexible I did multiple jobs like admin work, debt collecting and going out into the fields investigating river courses and helping local areas create natural flood barriers.

### **Skills**

**Communication**

- Outstanding communication skills developed through football and Esports to be able to manage players
- Presented many PowerPoint presentations to others throughout my academic years on IT and game development related subjects

**Teamwork**

- Experienced in working with teams as I have played in high division U16 football team since 2005-2017, and I'm currently playing for Overwatch team which requires managing other players

**IT skills**

- Designed websites and developed games for my course at college
- Can easily work with all Microsoft office software
- Can work in C++, C#, HTML and CSS at a beginner's level
- I am familiar with software such as Unity, Blender, Unreal Engine and Visual Studio Code.

## **Outside Interests**

### **Esports Organization**

- Organising team strategy to win tournament games
- Fluently managing the team on how to approach our strategy

### **Developing Games**

- Been interested in developing games at a young age
- Recently Loved working in gaming Engines
- Like to write and note my game ideas

### **Gaming And Film**

- Love playing games strategy games and competitive games
- Watching films and reviewing them with friends
